- Accuracy: ±2%
- Two Mode: peak data hold and real time display
- Beeper and LED indicator light on when reaches preset torque
- Unit switch among KG-CM, KG-M, FT-LB, IN-LB and N-M
- Rotatable mechanism can get total 240° view area to read information shown on the LCD display easily
- Display direction can be toggled to read torque information easily
- Target torque can be shown in using
- No activity detected for 3 minutes will automatically enter sleep mode to save battery power

Strongly Recommended Functions

- AC/DC voltage, AC/DC current, resistance, capacitance, diode, frequency, temperature measuring, duty-cycle, auto on and off, data hold, etc. RS232 interface connected with computer to record, analyze, process and print data.
- Advanced plastic-injecting panel, insulated.
- Overload-protection function guarantees safety.
- Manual and automatic measuring
- Big LCD display, easy readout.
- Designed and manufactured strictly according to international Electrotechnical Safety Standard.
